### WORK EXPERIENCE

JUL 2025- SEP 2025

#### NAVTTTC (TVET-GIZ) - MOODLE DEVELOPER (CONSULTANT)

Developed a Learning Management System (LMS) using Moodle 4, PHP, and MySQL.

- Maintained and managed the system's database to ensure data integrity and seamless user access.
- Provided technical support to end-users and instructors, troubleshooting login, course access, and content-related issues.
- Configured and customized the platform to meet specific educational requirements, ensuring a user-friendly and effective learning environment.

NOV 2023 - PRESENT

#### ELECTION COMMISSION OF PAKISTAN (ECP) - DEVELOPER

Managed multiple projects, including developing an LMS using Moodle 3.4, PHP, and MySQL.

- Developed a module for collecting and monitoring trainee data and institute visits for the Election Commission of Pakistan
- Provided training to different departments on the management and usage of various projects and systems.
- Performed data analysis on different requirements using Python and MySQL.

JUL 2022 - SEP 2022

#### JAPAN STATION - MOODLE DEVELOPER

Developed a Learning Management System (LMS) for a Montessori school using Moodle 3.4, PHP, and MySQL.

- Customized the platform to meet the school's specific needs, including a user-friendly interface for students, teachers, and parents.
- Managed the site's database and course content, ensuring a seamless and reliable online learning environment.
